Database : MySQL

Development-Tools : Atom, Brackets, Visual Studio  
AI-Tools : GitHub Copilot, Codeium  
Other Tools : Github, Figma (UI/UX-Tool)

## PROJECTS

### MINOR-PROJECTS

- Developed a frontend clones of Amazon, Netflix, and Hotstar using HTML, CSS, JavaScript, replicating core UI/UX features and functionality.
- Developed a responsive To-do list web application with dynamic task management features using HTML, CSS, and JavaScript.

### MAJOR-PROJECTS

- Developed a console-based Java application for E-Book management and organization.
- Implemented book search, user authentication, and SQL database optimization for efficient storage and retrieval along with progress tracking and personalized reading modes

## INTERN PROJECTS

### 1.Comfi - Responsive E-Commerce Furniture Webpage

- A fully responsive e-commerce webpage for a furniture brand using HTML, CSS, and JavaScript.
- Implemented intuitive navigation, dynamic product listings, and interactive UI components.

### 2.Responsive Cafeteria Webpage

- Created visually appealing layouts and interactive menus to enhance user engagement.
- Ensured cross-device compatibility and optimized performance for a seamless browsing experience.

## EXPERIENCE

- Completed a 6-month Full-Stack Development internship at Q-Spiders, Vadapalani, Chennai, with hands-on experience in web application development and worked on real-world projects using front-end and back-end technologies.
- Delivered a lecture series on HTML, CSS, and JavaScript fundamentals to high school students, emphasizing hands-on exercises to build interactive web pages.

## ACHIEVEMENT

- Ranked in the Top 5 at the International Conference on Smart Technologies for Sustainable Development Goals (ICSTSDG) in collaboration with IEEE and IEEE Madras Section for a paper presentation.
